Assignment 2

```python
odd_numbers_divisible_by_3 = [num for num in range(1, 51) if num % 2 != 0 and num % 3 == 0]
print(odd_numbers_divisible_by_3)
```

Assignment 2

```python
numbers = list(range(1, 11))

numbers = [num for num in numbers if num % 2 != 0]

print(numbers)
```
